WEBSITE

www.thermoheat.nl

Thermoheat Distributor for Morgan Thermal Ceramics.

Thermoheat has become the distributor for all Morgan Thermal Ceramics products for the Netherlands from July 1, 2020. The closure of the Morgan Thermal Ceramics office in Oude Tonge has created a discontinuity in the availability of these materials.

Therefore, Thermoheat will take over Morgan's product stocks and expand it further to increase customers' service from our location in Middelharnis.

We are happy to support you by offering these services and products.

In addition to product sales, we have extensive technical know-how and experience to advise you in the best way for the most suitable choice of Morgan products.

The product range includes all products such as Superwool products, JM bricks, mortars and coatings etc.

Do not hesitate to contact us for your Morgan products at sales@thermoheat.nl or call us +31 (187) 497055 and ask for our sales team!

Hopefully we can welcome you as a customer.

GET IN TOUCH!

Thermoheat B.V. is known for high end quality products and 24/7 service. Do you have a question? Please do not hesitate to contact us!
